If you are interested in applying for an EVST – Project, or obtaining further information please visit our website <http://www.evst-mobility.eu/>

“An EVST-Project deals with thematic areas, which are also relevant for vocational training. Abroad you research related information, while you are learning a lot about the country - its people and the culture“. Jennifer, Mobility Student

“You stay a certain time abroad and there you are allowed to solve some tasks concerning your profession, without being attached to the working process in a company.“ Maurice, Mobility Student

“This was my best experience with other cultures. My stay abroad was really helpful for me to open my eyes towards this great world!“ Paul, Mobility Student

“I guess, a work-placement offers a good insight into a company. But it is difficult to integrate into work-procedures within an four-week internship abroad. This is also difficult with work-placements at home in Germany. Abroad you have additionally to deal with the language and cultural differences. Therefore I assume, that an EVST-project is a good opportunity to get a short but precise insight into a profession“. Tamara, Mobility Student
